### **Henning's Foods Presents Classic Chicken Broth**

OMAHA, Neb. (September 28, 2006) — Henning's Foods, in a joint venture with Mastertaste, is excited to present our intense flavored Classic Chicken Broth line to the food industry in response to demands for new savory soup mixes, gravies and marinades.

HJM Classic Chicken Broth is a powder that supplies a rich chicken flavor and aroma at a fraction of the cost of liquid or frozen broths. Classic Chicken Broth has a deep, concentrated flavor, provides a clean label, and quickly rehydrates to a golden brown liquid.

Applications for this product include liquid and dry soup bases, seasoning mixes, sauces, gravies, rubs and marinades.

HJM Classic Chicken Broth comes in three varieties: savory intense chicken broth, savory intense chicken broth with salt and savory intense chicken broth with cooked chicken. All are USDA approved and available in poly-lined 50 lb boxes.
